PETITIONING THE COURT

To modify the conditions of supervision as follows:

Prob 12B

-2-

Request for Modifying the
Conditions or Terms of Supervision
with Consent of the Offender

Name of Offender: Leodis Randle

Case Number: 4:12CR00177-001 KGB

The defendant shall actively participate in and cooperate with a regimen of mental health care and psychiatric aftercare as directed by the mental health provider and the U. S. Probation Office. This is to include his voluntary admission on an inpatient basis for stabilization should it be deemed necessary. He shall follow all the rules, regulations, and instructions of the treatment staff and, if recommended by the treatment provider, comply with the administration of psychotropic medication.

CAUSE

Mr. Randle's term of supervised release commenced on January 10, 2015. He reported for his initial intake at the probation office on January 14, 2015, and reported he will not comply with the restitution condition. He was referred to Family Service Agency in North Little Rock, Arkansas, for a mental health assessment, a psychiatric evaluation, individual sessions, and medication monitoring. He reported for his mental health assessment and is currently diagnosed with delusional disorder, cannabis abuse, seizures as reported by client, and primary support and legal problems.

On February 2, 2015, Mr. Randle failed to report for his psychiatric evaluation and failed to call prior to his absence. The service was scheduled at his request as he has reported to this officer and his treatment provider that he desires psychotropic medication for mental stability.

A Little Rock, Arkansas, Police Department Information Report reflected on February 4, 2015, Mr. Randle's legal spouse reported Mr. Randle was making threats against her. As the Little Rock police officer was interviewing Mr. Randle, a temporary protection order was served on Mr. Randle. The police officer also reported that he listened to a recorded conversation on the legal spouse's phone, where Mr. Randle was recorded several times stating he was going to cut her head off.

Mr. Randle reported for a rescheduled psychiatric evaluation on February 10, 2015, and the report noted he denied suicidal or homicidal ideation and he had a previous diagnosis of Schizophrenia, anxiety, depression, and seizures. Further treatment in the form of individual sessions and psychotropic medication were recommended by the service provider, but Mr. Randle will need to be referred to a primary care physician to address seizure activity prior to receiving a prescription for psychotropic medication. The assigned mental health therapist referred Mr. Randle to the free clinic, Harmony House, for testing regarding the reported seizure disorder.

On January 23; February 13; and March 3, 2015, Mr. Randle submitted urine specimens that were confirmed positive for marijuana and diluted specimens. As a result of his drug use, Mr. Randle accepted a referral to the Recovery Centers of Arkansas in Little Rock. He also failed to report for drug testing on February 11, 2015.

The probation office is concerned that Mr. Randle has tested positive for marijuana on more than one occasion within his first 60 days of supervised release. He was also recently diagnosed with delusional disorder and recommended for psychotropic medication for stability. These factors are concerns that reflect risks to reoffend.

Prob 12B

-3-

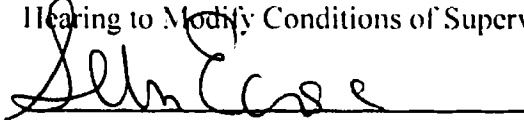

Request for Modifying the
Conditions or Terms of Supervision
with Consent of the Offender

Name of Offender: Leodis Randle

Case Number: 4:12CR00177-001 KGB

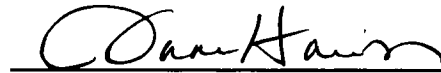

On March 18, 2015, Mr. Randle reported to the probation office to address the above reported violations. He agreed to a modification to include that he actively participate in and cooperate with a regimen of mental health care and psychiatric aftercare as directed by the mental health provider and the U. S. Probation Office. This is to include his voluntary admission on an inpatient basis for stabilization should it be deemed necessary. He also agreed to follow all the rules, regulations, and instructions of the treatment staff and, if recommended by the treatment provider, comply with the administration of psychotropic medication. During this office visit he also admitted he used marijuana on March 17, 2015, and signed an admission of drug use form. He also showed his new prescription for psychotropic medication of Depakote and reported he had the funds to fill the prescription. He was advised to fill the prescription and take his medication accordingly. He acknowledged an understanding.

Federal Public Defender Jennifer Horan was contacted and is in agreement with the attached Waiver of Hearing to Modify Conditions of Supervision.

United States District Court

Eastern District of Arkansas

Waiver of Hearing to Modify Conditions of Probation/Supervised Release or Extend Term of Supervision

I have been advised and understand that I am entitled by law to a hearing and assistance of counsel before any unfavorable change may be made in my Conditions of Probation and Supervised Release or my period of supervision being extended. By "assistance of counsel," I understand that I have the right to be represented at the hearing by counsel of my own choosing if I am able to retain counsel. I also understand that I have the right to request the Court to appoint counsel to represent me at such a hearing at no cost to myself if I am not able to retain counsel of my own choosing.

I hereby voluntarily waive my statutory right to a hearing and to assistance of counsel. I also agree to the following modification of my Conditions of Probation and Supervised Release or to the proposed extension of my term of supervision:

To add the following special conditions:

The defendant shall actively participate in and cooperate with a regimen of mental health care and psychiatric aftercare as directed by the mental health provider and the U. S. Probation Office. This is to include his voluntary admission on an inpatient basis for stabilization should it be deemed necessary. He shall follow all the rules, regulations, and instructions of the treatment staff and, if recommended by the treatment provider, comply with the administration of psychotropic medication.
